

Custom Solutions

Custom Options

- Size range (diagonal) 1.8" up to 20"
- Thickness: 0.7, 1.1, 1.8 and 2.8mm
- Glass Strength
- Surface Treatment
- Surface Harness
- Haze
- Transmission Rates
- Reflection
- Operating Life
- Hitting life
- Environmental Conditions
- EMI Shielding and Coating (Class B)
- Heating
- Sunlight Readable
- Flexible Ribbon Cable position and length
- G/F/G Glass Film Glass
- PC (Polycarbonate) Substrate

PanJit's offers the broadcast range of customized solutions for Resistive Touch Screens to meet your project specification.

Our design team is committed to be the perfect match supplier, no matter what your application requirements are, or the niche market you serve.

PanJit's superior customization ability we will always be your stable and creative Resistive or Matrix Touch Screen manufacturer for your product designs.

Our affordable design and development fees combined with our short design cycle times, will allow you to meet your budget and development deadlines.

Resistive Touch Screen Selector Table

All dimension are in mm
